## About Nations of Coaches

Since 2008, Nations of Coaches has partnered with men's college basketball programs around the country to help coaches and their players achieve a higher level of play – both on and off the court.

Every year, we work with 3,500+ coaches by helping their players make the connection between character and sport – equipping and encouraging them with the resources they need to build young men of high character.

### Mission Statement

To see coaches, and all whom they influence,  
impacted for the glory of God.

### Vision Statement

To leave a legacy of excellence.

We share the same vision as the creator of basketball, Dr. James Naismith: to use basketball to develop the next generation of men. We use values-driven leadership development to strengthen the character and core values of players, thereby leaving a legacy of excellence for a generation of men.
